

# Coming to You Live From CfA... Goal Q&A Sessions!

Have you ever wished you could talk to a Reviewer about a Project? For many Goals, now you can! College for America (CfA) offers Goal Question and Answer (Q&A) sessions. These are free, regularly scheduled, live video sessions hosted by a CfA Goal Mentor. These sessions are open to multiple students at the same time, so you might benefit from hearing each other's questions answered by the Goal Mentor.

The Goal Mentor will provide an overview of the Projects within a Goal and answer your questions. These sessions are intended for use before you submit a Project and while you are working on it. Any student can attend a session, whether you are working on a project and have not submitted yet, or if you are currently working with a Reviewer and need a little more help. These sessions are available to all students who are at any stage of working on their Project.

## Who are Goal Mentors?

Goal Mentors are experienced CfA Reviewers who are eager to help you understand what is required to master your Goal.

## What do other students say about Goal Q&A Sessions?

Student A: *"I was part of the Q&A group this past week, and I have to say that it was incredibly helpful! Anyone having any issues or with questions, do yourself a huge favor and make the time to be part of one of these sessions!"*

Student B: *"I just went to my first Q&A and it was great! I learned so much and the reviewer was awesome, nice and helpful! She answered all my questions and made me feel excited to work on all the Projects for my Goal. If you haven't had a chance to attend a Q&A, do it! It is worth the time!"*

## How do I view upcoming sessions?

You can view upcoming Goal Q&A Sessions by clicking on the link below that matches your local time zone:

[Hawaii-Aleutian](#)

[Alaska](#)

[North American Pacific](#)

[North American Mountain](#)

[North American Central](#)

[North American Eastern](#)

[Central Africa](#)

When you find a session you would like to attend, click on it and read the “Description” section to get its meeting link.

## How do I join a session?

1. If you've never used GoToMeeting, you can learn more by viewing this [quick start video](#).
2. Five minutes before the start time, copy and paste the web link provided in the calendar into your browser to view the video session, which will include images/screen sharing of the Projects in addition to the Goal Mentor who is speaking. You are welcome to share your webcam for a “face-to-face” experience or not; it's up to you.
3. You can hear the session using a headset or earbuds with a microphone plugged into your computer or by dialing the telephone number and access code provided in the calendar. If you are using only your computer, you must listen with a headset or earbuds to avoid creating an echo that will be distracting to everyone in the session. If you listen through your phone, please mute your computer.
